

PINEMAP UNDERGRADUATE FELLOWSHIP 2014

Looking for Summer Research?

The PINEMAP Undergraduate Fellowship

- Full time, up to 12 weeks over summer
- Work at a collaborating university
- Be mentored by a graduate student
- Study climate change and natural resources
- Earn up to \$5,250/summer and \$1,750/fall

This program includes a fall distance course

- Independent study credits through your school
- Learn about and improve communication skills
- Develop an engaging lesson presented to nearby secondary school students
- Produce scientific research communications

What are the Qualifications?

You are eligible if you:

- Will have completed your freshman year
- Are interested in natural resources
- Agree to participate in both components

How Do I Apply?
