

# Planning PINEMAP's Final Meeting

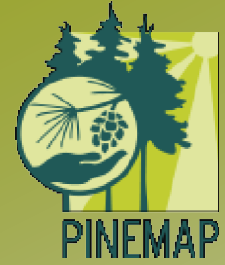

---

PINEMAP Annual Meeting  
June 4, 2015

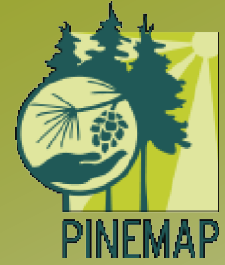

# We are not finished...

- At least one more all-team, in person meeting seems justified to
  - finalize year 1-5 science
  - roll out results to key stakeholders
  - plan for final integration, messaging, and continuity
  - closure

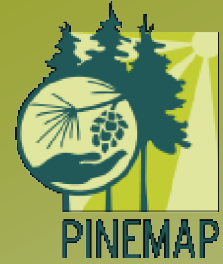

# Constraints

- Timing relative to end of funding
- Readiness of information for different stakeholders

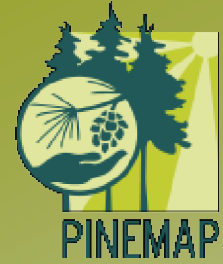

# Outcomes for today

- Consensus on
  - when to hold the meeting
  - length of meeting
  - meeting objectives
  - who to invite
  - next steps

# Straw dog objectives

- Internal – for us
  - science
  - final integration
  - continuity
  - closure/celebration
- External – for stakeholders
  - science
  - DSS

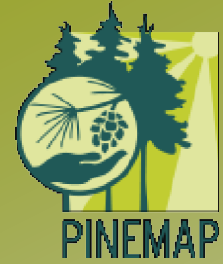

# Straw dog agenda

External

- Reporting on years 1-5 science
- DSS rollout for stakeholders

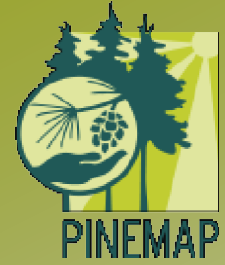

Internal

- Finalizing plans for higher level integration (“meta papers”)
- Discussing messaging for broader audiences
- Team science lessons learned
- Finalize plans for post-PINEMAP continuity

# Table questions to discuss

- Timing (when and how long)
- Location
- Goals and outcomes of meeting
- Activities or sessions to hold
- Stakeholders to invite
- Relationship of meeting to final report
- Relationship of meeting to activity during no-cost extension period
- Additional activities that happen elsewhere
  - Other stakeholder networks to tap (e.g. Association of State Foresters, funding agencies...)

# Planning committee

- Logistical planning at UF
- Executive Committee meets periodically to provide feedback and guidance
  - add SERCH representative
- Additional volunteers?
