

PINEMAP Year 6 Meeting

May 24-26, 2016

2010 – DC Reverse Site Visit

2011 – Atlanta; visioning; solidifying Aim plans

2012 – Atlanta; early attempts at integration

2013 – Athens; integration platforms; field tour

2014 – Athens; stakeholder session; critical path analysis

2015 – Athens; first order integration papers; “Science is a knife fight”

2016 Meeting objectives

- Share research results and primary interpretations
- Collaboratively assess PINEMAP accomplishments
- Discuss implications for communicating findings to various audiences
- Plan 2nd order integrative analyses
- Finalize DSS completion pathway and public data release

Agenda Overview

Day 1:

- Hear results from 9 groups of researchers in plenary
- Time for feedback on posters, DSS, and Extension Handbook
- Discuss areas of consensus and controversy

Day 2:

- Open up floor to all participants to share their results
- Link results to outcome themes
- Develop strategies for communicating to avoid misinterpretation
- Workshop 2nd order papers
- Reflect on team science

Day 3:

- Data concerns: ownership, authorship, release, DSS completion and legacy
- Timeline activity
- Packaging PINEMAP results: final report, rollout, RFA framing, leveraging resources

Overview of today

- Have 9 groups presenting in 4 sessions (on handout)
15 minutes each presentation, then 15 minutes for clarification questions
- Audience tasks: (on handout, take notes for discussion)
 1. Listen for confirmatory/ surprising elements of science
 2. Who will want to know about this/ how to deliver
- Panel discussion following each set of presentations:
 - What is new
 - Where do we have consensus/ friction/ uncertainty
 - Set up structure to resolve differences
- Dinner at Flinchum's Phoenix tonight
