

Building PINEMAP's Integration Culture

Tim Martin

PINEMAP Executive Committee Mtg

August 22, 2013

What does our annual report say about our level of integration?

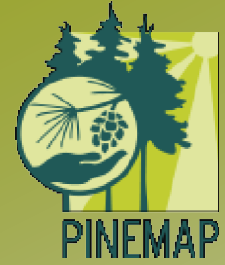

Pine Integrated Network: Education, Mitigation, and Adaptation project (PINEMAP) is a Coordinated Agricultural Project funded by the USDA National Institute of Food and Agriculture, Award #2011-68002-30185

United States
Department of
Agriculture

National Institute
of Food and
Agriculture

What will next year's annual report say about our level of integration?

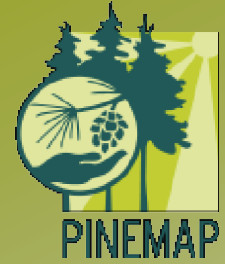

Pine Integrated Network: Education, Mitigation, and Adaptation Project funded by the

United States Department of Agriculture, National Institute of Food and Agriculture, Award #2011-68002-30185

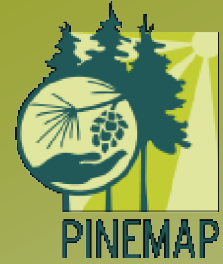

United States
Department of
Agriculture

National Institute
of Food and
Agriculture

Some insights from Wendy Lin's Survey

- > 95% of PINEMAP participants agree multi/interdisciplinary approach is necessary for success
- Communication across aims is a weakness
- Platforms provide cognitive and social integration

What is needed?

- Disciplinary excellence ✓
- Agreement on platforms ✓
 - Must support outcomes
 - Must provide benefits to contributors
- Communication – Efficient and Effective
 - Beware e-mail for decisionmaking and discussion
- Follow through
- Clearing roadblocks quickly
 - When these appear, contact me; it is my job to help

All Team PINEMAP (“ATP”) Webinars

ATP Webinars

- Can we capture some of the energy of our annual PINEMAP meeting from a distance, efficiently and effectively?

Proposed Objectives

- **UPDATE:** share information on progress to celebrate successes (deliverables) and bring all PINEMAP participants onto the same page about where we are relative to the overarching project goals
- **STRATEGIZE:** ask provocative questions and deliberate to identify and describe remaining gaps, bottlenecks & pinch points; collaboratively reassess and adapt goals
- **PLAN:** brainstorm mechanisms/platforms that will help sub-teams move forward and later integrate with other teams

Outcome Themes

Increased carbon (C) sequestration from silvicultural and genetic enhancement of productivity and efficiency of fertilizer use, and resilience to climate variability and disturbance.

Enhanced capacity for regional, interdisciplinary collaboration among climate and forest scientists and Extension and education professionals.

Enhanced connections between corporate and noncorporate forest landowners and forestry and climate researchers and education and outreach professionals.

Engaged and literate public with the capacity to make informed, practical decisions related to climate, forest ecosystems, and forest management.

Public policy that supports sustainable management of planted pine under future climate scenarios.

A more robust and resilient forest-based economy in the Southeast U.S.

Outcome Themes

Increased carbon (C) sequestration from silvicultural and genetic enhancement of productivity and efficiency of fertilizer use, and resilience to climate variability and disturbance.

- Scenario development
- Regionalization of seed deployment analyses
- DSS
- Modeling / Econ-Policy integration

Outcome Themes

Enhanced connections between corporate and noncorporate forest landowners and forestry and climate researchers and education and outreach professionals.

- Development of PINEMAP-corporate tech transfer models
- DSS

Outcome Themes

Public policy that supports sustainable management of planted pine under future climate scenarios.

- Modeling / Econ-Policy integration

Outcome Themes

Engaged and literate public with the capacity to make informed, practical decisions related to climate, forest ecosystems, and forest management.

- PLT module

Proposed timeline

- Introductory ATP webinar in September
 - Overview/reminder of outcome themes and integration platforms
 - Lay out structure for future webinars
- Subsequent webinars every two months, focused on a specific theme or platform
 - October, December, February, April
